

All coeducational institutions of higher education that participate in any Federal student financial aid program (federal Pell, Federal SEOG, and Federal SSIG Grants; Federal Work Study; and Federal Family Education, Federal Perkins, and William D. Ford Federal Direct Loans) and have intercollegiate athletics programs must provide information concerning their intercollegiate athletics programs under the Equity in Athletics Disclosure Act of 1994, Section 360B of Public Law 103-382. This is a mandatory survey and should take precedence over any other athletic survey,(i.e. the NCAA survey)

This act and accompanying Federal regulations require that the following information, based on the previous reporting year, be available for inspection by students, prospective students, and the public by October 15 each year. In other words, your report should be done before the deadline of this on-line survey which is usually at the end of October.

General Information

Institutional Name: Ohio State University-Main Campus

Address: 190 N. Oval Mall

Address2:

City: Columbus

State: Ohio

Zip Code: 43210

Telephone: 614 - 292 - 6446 Ext.

Athletic Department information

Athletic Department Name: Gene Smith

Address: 224 St. John Arena

Address2: 410 Woody Hayes Drive

City: COLUMBUS

State: Ohio

Zip Code: 43210

Designated Reporting

Year: Begins: 7/1 2005 Ends: 6/30 2006
(mm/dd)

Number of Full-time Undergraduates (i.e., full-time, baccalaureate, degree-seeking students) by Gender: (The numbers below are reported by your institution in IPEDS. These fields can be updated if changes are needed.)

| | Number | Percent |
|-----------------------|--------|---------|
| Male undergraduates: | 17773 | 53% |
| Female undergraduate: | 16044 | 47% |
| Total undergraduate: | 33,817 | 100% |

Supplemental Information

The Ohio State University, Department of Athletics continues its commitment to providing equitable opportunity for both male and female students at the university. OSU Athletics is a self-supporting department that receives no student fees, state or government subsidy, or university general fund support. In 2004-2005, the department of athletics paid over 19 million dollars to the university for grant-in-aid, overhead charges, rent, physical plant assessment, and support for the general fund. We are dedicated to providing the highest level of intercollegiate athletic experience for our student athletes while maintaining the fiscal integrity of the overall program. We believe that increasing opportunity rather than diminishing programs is the way to achieve equity in athletic opportunity.

In the past five years the department has brought the difference between athletic participation rates and the undergraduate population from a high of 5.8% in 2000-2001 to its current difference of 1.6%. The department targets a proportionality of between 1% and 3% understanding that yearly fluctuations may occur as the student population changes.

We currently offer 35 sports: 16 men's sports, 17 women's sports and two co-ed teams. We have not capped the rosters for any sport other than football. We encourage our coaches in the women's sports to offer opportunities for as many students as have interest and ability. We have a recent history of continuing expansion in our women's program, adding women's lacrosse and women's crew in 1996 and women's ice hockey in 1999. In addition, we currently offer nearly all of the sports offered by high schools in the state of Ohio and nationally, and believe that our sports offerings effectively meet the needs of female athletes' interests and abilities. While the gap in participation percentages could be narrowed by capping team rosters for sports which have traditionally attracted more male participants to the teams (lacrosse and track), we feel that we are currently supplying equal opportunities for participation in our athletic program and hesitate to decrease opportunity for strict proportional interpretation.

We carefully monitor funding and expenditure levels for all sports, as well as salaries, to ensure equity. Expenditures for football with its large team and significant game day expenses in football, men's basketball, and men's ice hockey, tend to skew the comparison data. When football expenditures are deleted from the equation in most areas of this study, the remaining programs have an essentially equal funding support level. We work to fund every program at the point where it can compete successfully in the uppermost levels of competition.
