

OHIO STATE ATHLETIC TRAINING

535 Irving Schottenstein Dr. | Columbus, Ohio 43210

To: Wrestling Team Athletic Trainer
From: Wil Turner MS, AT
Re: Athletic Training Facilities and Medical Services

Welcome to the Ohio State University! We hope you enjoy your visit to Columbus. Below you will find medical information that may be useful to you and your team upon arrival to The Ohio State University. At the competition site you will access to:

- ◆Athletic training room (ATR) and treatment areas at your disposal.
- ◆Modalities including ice bags, ice cups, hot packs, cold and warm whirlpools, ultrasound, and electrical stimulation units. (US and e-stim require a physician's prescription to be administered by one of our staff athletic trainers, however, any visiting ATC may perform any modality on his/her own student athletes.)
- ◆Water and cups.
- ◆Emergency equipment including, vacuum splints, crutches, and AED.
- ◆Physician will be attending each competition.

The ATR in the Covelli Center is located in the north hallway from the competition floor. Please note that the Jennings Family Wrestling Practice facility is attached to the Covelli Center on the east end of the Covelli Center. The ATR will be staffed at least one hour prior to weigh-ins. If your team is traveling without an athletic trainer, please notify us prior to the competition date so the appropriate arrangements can be made. If you have any questions, special requests, or concerns, please contact us at (614) 688-2377

Sincerely,

Wil Turner MS, AT
