

Bucks Go Pro 2.0

What is Bucks Go Pro 2.0?

The Bucks Go Pro 2.0 corporate internship program is a summer internship program exclusively for Ohio State student-athletes. The internships are offered at various organizations and corporations and provide real world experiences for student-athletes.

What is the structure of the program?

The interns are able to start work in early May and can work for their respective organization as late as the first week in August. The program dates are flexible in order to best accommodate the schedules of the supervisors, while aligning with the start dates of other interns working within the organization. Interns may work up to 200 hours over the course of their internship. The daily responsibilities of the internship are decided by the organization. We expect the opportunities to help enhance the intern's professional development and personal growth.

Are Interns Compensated?

Interns are paid during this program for up to 200 hours.
